

Further to the Political tension between Saudi Arabia & Yemen, Saudi Arabia and Coalition decided to temporary close the border with Yemen.

Here below the last up-date of Yemen ports:

## 1. **HODEIDAH:**

- Hodeidah Port is still officially & temporary closed.
- For all bookings to Hodeidah currently in T/S via Saudi Ports or at Sea, we need to push for a COD to Aden. Cargo owners must be contacted to study this possibility.  
All COD costs including storage costs in Jeddah & SAKAC are for customer's account ( shipper or receiver).
- We have decided to keep accepting new bookings of DRY containers ONLY to Hodeidah , providing that :
  - At time of booking stage shippers must be informed that in case Hodeidah port is still closed when containers will arrive near to POT, we might have to declare Force Majeure and as a result accomplish/terminate B/L at the most suitable port in the area. COD to Aden will be POSSIBLE BUT AT CLIENT's ACCOUNT if situation remains unchanged.
  - REEFER / HAZARDOUS / SPECIAL equipments **CANNOT** be accepted to Hodeidah until further notice.

## 2. **ADEN**

- Aden Port is officially OPEN. Please offer this alternative solution for all fresh bookings to Hodeidah , however the receivers must agree to release the goods from Aden .
- REEFER / HAZARDOUS / SPECIAL equipments **CANNOT** be accepted to Aden until further notice.
