

■ **USA – Local Charges / Service Fees**

Genset Usage Fee USA

March 30, 2017

Dear Customer,

We would like to inform you that with effect from **May 1st, 2017**, Hapag-Lloyd will implement a revised Genset Provision Program in the USA.

As per our new Genset program, we will no longer provide a Genset for merchant haulage (MH) shipments which start or end at a port facility in the USA. There will be no change to the Genset provision for carrier haulage door delivery (CH) shipments or those transported by rail in the USA.

Customers still requiring a Genset for local merchant haulage port shipment, may request so through their local Sales Representative for an additional charge of \$150 per Genset, if available.

This additional is added to our USA – Local Charges / Service Fees as follows:

Charge type description	Charge Code	Service or Remarks	Currency	Fee	Effective Date
Genset Fee per Usage Origin USA	GDO	Genset Fee for origin port merchant haulage only	USD	\$150.00 per genset	5/1/2017
Genset Fee per Usage Destination USA	GDD	Genset Fee for destination port merchant haulage only	USD	\$150.00 per genset	5/1/2017

For further information, please contact your local Hapag-Lloyd office.

Kind Regards,

Hapag-Lloyd (America), LLC
as agent of Hapag-Lloyd AG
