Barge Congestion Surcharge: Antwerp & Rotterdam

13th July 2017

Dear valued Customer,

Due to continuous operational constraints in regards to the handling of barges in the ports of Antwerp and Rotterdam, our barge operators implemented a Congestion Surcharge.

As we are not in the position to absorb these additional charges, we will likewise implement a **Barge Congestion Surcharge** applicable for all inland transports per barge to and from the ports of Antwerp & Rotterdam. The surcharge is valid **with immediate effect** and amounts:

EUR 25 per Im- and Export Container

We hope for your understanding that this surcharge is currently unavoidable in order to ensure a smooth handling at the European Westports.

Further information can be obtained from your local Hamburg Süd and Aliança Offices.
