Far East Exports Rate Applicability Date – Update

27 April 2017

Hamburg Süd would like to communicate that effective 30 May 2017 the Rate Applicability Date policy for Out-ports¹ will consider vessel estimate time of departure (ETD) based on service pro forma. This policy will be harmonized with the one already applied for main ports.

This harmonization aims to give further transparency and visibility to our customers considering eventual schedule changes of vessels will no longer impact the rates applied to your shipments. This policy is valid for all non-FMC trades.

Thank you for your continuous support of our services. Please contact your local Hamburg Süd office should you require more information.

Note: ¹Out-ports: Ports not directly served by main liner vessels
