EMCS – Structural suspension of direct Progreso MX call

Dear valued customer,

We regret to inform you that due to on-going schedule disruptions of the EMCS service Hamburg Süd decided to suspend the Progreso MX call for all coming sailings with immediate effect.

All future southbound Progreso bookings will be loaded on Eurosal service and will be transhipped at Cartagena CO with our ITFS service on a fortnightly basis.

Please contact your Hamburg Süd representative with any questions you may have.

Kind regards

Hamburg Süd
