

## New Maersk Line offering from India to Europe

From January 2018

Both **Hamburg Süd** and **Maersk Line** have over 100 years' experience, delivering for customers across the world. As a result, we know that not all customers want the same thing. To support and serve different customer needs, we will preserve and extend the range of some of the products and services we offer;

We will continue to engage in the market as independent companies, offering you more choice and enhanced products with the **same great service and people** that you know today.

## ME7 Product

ME7

SUEZ CANAL, Egypt	Fri	Fri	44
PORT TANGIER MEDITERRANEE, Morocco	Wed	Thu	49

**Key Notes**

- *Cut-offs and deadlines remain as is until services change in the normal course of business*
- *Until Hamburg Süd reefers are fitted with RCM technology in 2018, we will be able to steer that our customers only receive units with RCM.*
- *There are no changes to how you book Dangerous Cargo*
- *Hamburg Süd and Maersk Line/Safmarine will have fixed allocations, and will each manage their existing capacity and rolling processes*
- *We are working hard towards integrating our equipment pools so that we will have one joint pool for our customers. Once fully integrated, you will be able to reuse import containers from Hamburg Süd as export containers for Maersk and vice versa. For now, we will continue to use Maersk equipment pool to load your cargo on ME7 service vessels.*

***Please get in touch with our sales team today!***

**Maersk Line**  
**Your Promise. Delivered.**
