

October 20, 2016

To our valued customers,

Due to reduced port availability and port closures in North Europe during Christmas vacation period, also with a reduced demand in the market in November particularly, Maersk Line will implement a contingency plan for a number of scheduled port calls during this period. We aim to minimize the impact to our customers by securing alternative routings wherever possible.

This is our first update to inform you of our new blanking schedule. We will share more details about revised routings as soon as they become available.

For further questions, we encourage you to liaise with your local Maersk Line customer service representative or check <https://my.maerskline.com/>.
