

Papua New Guinea - Maersk Line to add direct port calls in Madang and Wewak

Maersk Line and Inchcape Shipping Services are pleased to share our upgraded service offering for 2017. In addition to the existing ports calls of Port Moresby and Lae we will add direct calls to the ports of Madang and Wewak. This service expansion is part of our long term commitment to provide customers in PNG with competitive and reliable transport solutions.

Details of the service upgrade as follows:

- Effective March 2017
- Our vessels will call Port Moresby-Lae-Madang-Wewak on each voyage through Papua New Guinea
- Rabaul & Kimbe will continue to be serviced with domestic coastal relay from Lae.
- Our contact details will remain unchanged and the usual team will be on hand to answer any questions you may have.

We are introducing this change in order to expand our PNG coverage and enable faster transit times from these key ports into the rest of the world with our comprehensive global coverage.

More details will be provided closer to the launch date in March.
