

Canada - Terminal Gate Fees Vancouver - Update

Dear,

Further to our earlier notice on Vancouver, BC – Local Drayage under Container Trucking Act, issued July 8, 2019, we would like to clarify that the PMR charge is also applicable for truck moves to and from Vancouver rail ramps, in addition to the ports.

As a result, our 50 USD Positioning Movement Origin (PMO) and Positioning Movement Destination (PMD) tariff charge will apply to both truck moves in and out of the port and the rail ramps.

This is currently in effect.

We are here for you - if you have any questions or comments, please contact your local [Hapag-Lloyd office](#) or send me an [email](#).

Best regards,

Michael
