

France - Le Havre and Fos sur Mer - Strike Update

Dear ,

Following our communication dated December 19, 2019 we regret to inform you that the strike situation at French ports haven't changed. We are still facing sporadic strikes in Le Havre and Fos sur Mer, generating terminal and vessel congestion.

The work stoppages at French ports will be as follows:

Fos sur Mer: 72 hours - from January 8 - 20.00hrs, until January 11 - 20.00hrs.

Le Havre: 72 hours - from January 9 - 06.00hrs, until January 12 - 06.00hrs.

This situation is creating vessel omissions and consequently a roll-over situation for all export cargo.

Import cargoes are also heavily affected by vessel omissions and the affected cargoes have been discharged in alternative ports.

We take all necessary steps to dispatch export cargo / repatriate import cargo.

Our teams will keep you closely informed about future developments.

We are here for you - if you have any questions or comments, please contact your local [Hapag-Lloyd office](#) or send me an [email](#).

Best regards,

Christian
