

## Hapag-Lloyd signs space charter agreement with Maersk and MSC on the Asia - North Europe trade

Dear ,

Hapag-Lloyd will expand its product offering on the Asia-North Europe trade starting in March 2020.

As a member of THE Alliance, Hapag-Lloyd already offers a comprehensive service portfolio. However, to strengthen it even further, Hapag-Lloyd has signed a space charter agreement with Maersk and MSC that will give us access to selected services of 2M.

The addition of these services will enable Hapag-Lloyd to offer an even higher frequency of weekly departures and more routing options as well as to directly serve additional ports with high schedule reliability.

In the upcoming weeks, we will provide you with additional details about these services.

**We are here for you - if you have any questions or comments, please contact your local [Hapag-Lloyd office](#) or send me an [email](#).**

**Best regards,**

**Christian**

from our Customer Communication  
team
