

Germany & Benelux - Low Water Situation on River Rhine

Dear MATHIEU,

In light of currently very dry conditions in parts of Europe which also limit the transport capabilities of our main inland waterways, please be informed about the waterlevels on the Rhine River as indicated for week 30 in the table below:

We shall keep you advised on developments, should the low water situation further deteriorate.

Date	Week	Pegel Kaub	Surcharge Upperrhine & Neckar service	Pegel Duisburg Ruhrort	Surcharge Lowerrhine service	
20.07.2019	29	1.66M	No	3.10M	No	
21.07.2019	29	1.62M	No	3.15M	No	
22.07.2019	30	1.57M	No	3.02M	No	
23.07.2019	30	1.49M	Yes	2.97M	No	Forecast
24.07.2019	30	1.44M	Yes	2.89M	No	Forecast
25.07.2019	30	1.40M	Yes	2.82M	No	Forecast

We are here for you - if you have any questions or comments, please contact your local **Hapag-Lloyd office** or send me an **email**.

Best regards,

Michael
