

Our enhanced North Sea Baltic Express (NBS)

Dear MATHIEU,

We enhanced our North Sea Baltic Express (NBS) to better serve your business within North Europe.

As from week 25, the NBS service will change to a butterfly concept with 4 x 2,500 TEU vessels, all operated by Hapag-Lloyd. This measure will ensure an improved schedule reliability and better transit times for your cargo.

The revised rotation of the NBS will cover following ports:

Antwerp • Rotterdam • St. Petersburg (CTSP & PLP) • Helsinki • Antwerp • Rotterdam • Helsinki • Kotka • Antwerp

The first NBS sailing with this new rotation will be:

“Milan Express” Voyage 1924E with ETA Antwerp, June 18, 2019

We are here for you - if you have any questions or comments, please contact your local **Hapag-Lloyd office** or send me an **email**.

Best regards,

Christian
