

## **20' Standard Dry Equipment Imbalance Surcharge – Exports from North Europe & South France (Excl. UK & Ireland)**

Dear ,

Dear Customer,

As per our previous announcement, the ongoing equipment shortage in North Europe causes overall increased repositioning costs to serve our customer's requirements. While initially this was predominantly valid for 40' standard dry and high cube containers, the situation meanwhile equally also affects 20' standard dry containers.

Therefore, we will implement an Equipment Imbalance Surcharge also for our **20' standard dry equipment** effective **March 1st, 2021** for all exports from North Europe & South France (excl. UK & Ireland) in addition to the already existing Equipment Imbalance Surcharge for 40' standard dry and 40' high cube equipment.

For all FMC related destinations, the EIS for 20' standard dry equipment will be effective March 15th, 2021.

Charge Type Description	Charge Code	Trade	Fee per Container
Equipment Imbalance Surcharge	EIS	North Europe & South France to North Europe and South Europe	EUR 80 per 20'GP Container
		North Europe & South France to Africa (excl. Senegal & Mauretania)	EUR 165 / USD 200 per 20'GP Container
		North Europe & South France to Senegal & Mauretania	EUR 200 per 20'GP, 40'GP & 40'HC Container
		All other export trades	USD 200 per 20'GP Container

If you have any questions or comments, please contact your local [Hapag-Lloyd office](#) or send me an [email](#).

Best regards,

**Annalena**
