

ECX and MSE - Vessel Slide

Dear ,

In view of the on-going delays on our services from the **East Coast South America to Europe (North and South)** caused by strikes, congestions and bad weather at both ends, amongst others, we had to take actions in order to bring both services (ECX and MSE) back to its proforma as soon as possible.

Aiming to have the minimum impact to our Customers **ECX and MSE** service will slide by one week

Europe East Coast Express Service (ECX): vessels will turn in ARBUE (Buenos Aires), after being slide down on its departure from North Europe. Voyages NA053R Northbound, and NA104A Southbound will be considered as “void” on our schedules.

Mediterranean to South America East Coast (MSE): vessels will turn in BRPNG (Paranagua), after being slide down on its southbound arrival from South Europe. Voyages MM101R Northbound, and MM105A Southbound will be considered as “void” on our schedules.

If you have any questions or comments, please contact your local [Hapag-Lloyd office](#) or send me an [email](#).

Best regards,

Annalena

from our Customer Communication
team
