

## Lagos, Nigeria - Suspension of OOG acceptance

Dear ,

Due to the suspension of Out of Gauge (OOG) / Breakbulk handling at Lagos ports (Apapa and Tin Can), we will stop accepting / loading OOG shipments effective immediately.

As for already en-route shipments an automated update will be shared on how your shipments will be delivered.

We are currently looking for alternatives to assist in getting your oversized cargo to Lagos and further developments will be shared when available.

If you have any questions or comments, please contact your local [Hapag-Lloyd office](#) or send me an [email](#).

Best regards,

**Christian**
