

Mediterranean Pacific Service (MPS) – Structural Omission of USLGB eastbound

Dear ,

We would like to inform you that due to the severe delays that all carriers are currently facing on the **US West Coast in Californian ports** we regret but have to take precautionary measures to maintain the schedule integrity of the **MPS service**.

It has therefore been decided to structurally omit the current eastbound calls at **Long Beach (USLGB)** and load the export cargoes on the westbound call already.

First sailing omitting USLGB eastbound will be **Long Beach Express 02E04**.

This measure remains in force until further notice until the situation in Californian ports have been resolved.

If you have any questions or comments, please contact your local [Hapag-Lloyd office](#) or send me an [email](#).

Best regards,

Annalena
