

Far East-North Europe Loop (FE 2/3) – Temporary change from Yantian to Nansha Container Terminal

Dear ,

At present the Operation at Yantian International Container Terminal (YICT) is disrupted due to COVID-19 implications. In order to limit the impact and ensure business continuity Hapag-Lloyd will temporarily change the Far East Loop 2/3/4 from calling Yantian to Nansha Container Terminal for the following sailings:

- Far East Loop 2 (FE2): voy 015W AL ZUBARA, voy 013W MOL TREASURE
- Far East Loop 3 (FE3): voy 001W HMM RAON

The voyage details for the consecutive weeks will be announced in due course.

Presently we will resume EIR and empty equipment release only for the above vessels until further notice.

1. We will send you a revised Booking Confirmation with Port of Loading as Nansha if the containers have not gated into Yantian CY.
2. If you have not picked up the empty containers, please approach our agent in Nansha for an Equipment Interchange Receipt (EIR) to facilitate the equipment release.

If you have any questions or comments, please contact your local [Hapag-Lloyd office](#).

Best regards,
