

Bonjour

Merci de prendre connaissance des dernières informations issues de la call hebdomadaire et concernant l'actualité Rail Chine

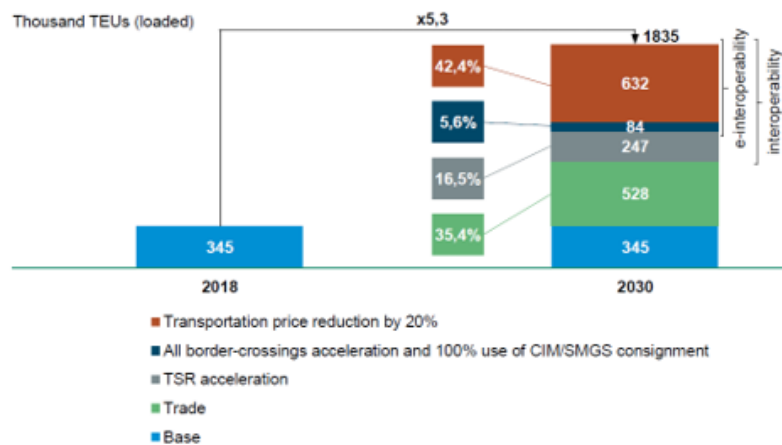

## FLS Control Center Eurasia Call

April 26, 2021

### 1. MARKET – COMPETITION – POLITICS

#### UIC Study No 3

- projection of Eurasian rail volumes show double volumes in 2025 and triple volumes in 2030 (base 2020)
- as presented in Paris Webinar last Thursday

**Capacity planning** in April/May to be continued as follows

- 1 Priorization with 3 different tiers is still valid:
- 2 Customer priorization of regular customers will follow statistics of previous months (after CNY)
- 3 equipment costs will increase, even also for regular customers
- 4 additional EB volumes have to be aligned with MMS CN separately
- 5 departure delays with different rates to be considered according ATD
- 6 CRCT rules of capacity planning to be used for capacity management
