October 22, 2021

- **CR limitation on WB train plan (end of Oct.)**

Due to heavy congestion, China Railway announced limitation on WB train plan which impact some WB train departure at end of Oct. Some of the departure will be cancelled or delay due to the CR limitation.

As far as we know, Chongqing ETD 27th Oct; Xi'an ETD 28th/ 29<sup>th</sup> Oct. block train will be impacted.

Detail of alternative/rolling plan will be noticed by our operation team for impacted customer.

- **Shanghai Train**

Starting from end of Sep, new CR Eurasian express train departure from Shanghai terminal. First trial from Shanghai to Hamburg departure on 28th Sep.

Welcome to contact our BD team if any needs or interests.

- **EU Trucking Shortage/Delay**

Influenced by Covid virus & huge volume, there is truck shortage in most EU countries. The pre-carriage & on carriage are facing delay in most EU country. More detail plz checks with our operation team.

WK 43 update: The situation of UK & NL is better than before. welcome to contact if any new bookings.

- **Shipment with battery suspend in Yiwu**

Yiwu train officially suspended any built-in battery bookings since 17th Sep.

Any query or alternative solution needed, please contact our BD team.

October 22, 2021

- **Leadtime prediction & Border Delay**

**Westbound:**

Rostock: 35-40+ days (Rostock-Hamburg/Duisburg/Tilburg +3-7 days dwell time)

Mala/Warsaw/Lodz: 30-35+ days

Duisburg/Hamburg/Tilburg/Neuss: 35-46+ days

**Eastbound:**

Average :25-35 days

**Border Delay:**

CN/KZ: Congestion due to sanitary control. This congestion will also impact transit from departure to border. Delay >7 days.

CN/MN: Congestion under CR traffic limitation, Erlan is in heavy delay 7+days

CN/RU: Congestion under CR traffic limitation, delay 7+ days

BY/PL: Congestion is getting serious, under 7-10 days delay

KLG(Kaliningard) Congestion due to volume increased.

\*Kaliningrad is under great pressure of volume increased since Aug.

\*Worst case in KLG by RTSB for more than 20 days waiting.

October 22, 2021

- **Covid-19 Impact in China**

### **Traffic Control**

Due to Delta variant virus impacted , risk area now under wide range of control includes traffic ban.

\*0 High risk area.

\*Medium risk area decreased to 3.

内蒙古自治区 锡林郭勒盟 二连浩特市, Erlianhaote, Inner Mongolia;

内蒙古自治区 阿拉善盟 Alxa League

Mandatory 48 Hours Covid test is widely mandatory for driver per pup/delivery government or site request which cause overall limit to the capacity. Site pick up/delivery need to be checked case by case.

### **Enhancement Sanitary Control**

Except the regular Disinfection, additional sanitary control enhanced by major trains.

- **Xi'an** suspend the eastbound booking cargo delivery to and deconsol in Shanxi Province(陕西)
- **Chongqing** suspend the eastbound non-bonded deconsol. Chongqing also requests the cnee to do additional disinfection for cargo & container, details or anything unclear, plz check with our operation team.
- **Chengdu** might have new request which waiting for official notice.

- **Market Container Shortage Alert**

Due to container shortage in whole WB market, all shipments subject to the equipment availability, no guarantee.

WK43 update:

In short-term, situation is getting better. Our Shanghai depot should be able to cover needs for 2 weeks stock.

October 22, 2021

- **Space Situation (Market Capacity)**

Overall tight space situation is getting better for both WB & EB.

Welcome to check with our BD colleagues if any opportunities or urgent needs.

- **Westbound ETD Delay Risk**

Risk level: **Low** <3days; **Medium** >3days; **High** >5days

ETD	Delay risk
Xi'an	High
Zhengzhou	High
Chongqing	Low
Chengdu	Medium
Yiwu	Medium
Wuhan	Medium
Suzhou	Medium
Hefei	High
Changsha	High
