DB Schenker Announcement – Norfolk Southern Rail notification

Dear Colleagues,

See enclosed the latest communication from Norfolk Southern Rail.

- ✓ NS Alert: [Labor Negotiations and Service Update](#)

Contingency Plans – Gate Closure Implementation

Norfolk Southern has begun enacting its contingency plans for a controlled shut down of our network at 00:01 Friday September 16. The goal of this is to ensure that in the event of a work stoppage, crews, equipment, and freight safely reach destination with minimal disruption.

Effective 12:00 (noon) on Tuesday September 13, 2022, Norfolk Southern will close all gates to Intermodal traffic.

General Guidelines:

- In-gates for loaded or empty intermodal units for rail movement will close at all NS Intermodal terminals
- Traffic originating at on-dock port facilities and privately owned intermodal terminals will not be accepted
- Customers with eastbound interline shipments should contact the originating rail carrier regarding guidelines for the acceptance of traffic at origin
- Until further notice, out-gates will remain open at all NS Intermodal terminals during normal business hours for customers to pick up units

Best regards,
PM Ocean and Trade Teams
