### Statement on current developments in Ukraine

Dear valuable customer,

We would like to inform you that the operational process of international traffic on the Eurasian corridor is currently stable. We do not run any trains passing Russian – Ukrainian borders.

All trains are running as usual.

However, we are watching the current international situation very closely and are in touch with the German authorities and our business partners on the entire corridor. Jointly with our business partners we can ensure the monitoring of the containers. Please be assured that all contingency liability processes are governed by current international transport law (SMGS). At the same time, we are verifying alternative routings.

Rest assured that with DB Cargo Eurasia you have a strong partner on your side and can count on the highest possible level of reliability.

If you have any questions on this topic, please do not hesitate to contact your familiar contact person at any time.

Sincerely Yours  
DB Cargo Eurasia GmbH
