

Memorandum 09-2022

To: Global Ocean Freight

From: Global Network Partner Development | Schenker AG, Essen
joerg.hoppe@dbschenker.com

Date 05.10.2022

New Ocean Freight requirement Nicaragua: Description of goods and type of packaging in Spanish required

Dear Colleagues,

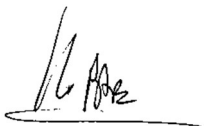

Please note that the government in Nicaragua is advising that MBLs and HBLs for ocean shipments must show the description of goods and the type of packaging in Spanish. This information is no longer permitted in English.

The new regulation is effective as of now.

For shipments already in transit, carriers will check the correct translation with shippers and update the information on MBLs and HBLs accordingly.

Thank you for your cooperation in complying with the new rule.

Kind regards,

A handwritten signature in black ink, appearing to read 'Jörg Hoppe', with a horizontal line underneath.
