

## Here's a schedule update for our MD1, MD2 and MD3 vessels

Dear Mathieu,

If you are shipping between Asia and the Mediterranean with our **MD1**, **MD2** and **MD3** services, please note that there are new schedule recovery updates for these services. These changes include alternating port omissions that have been extended into week 29 in Pusan, Korea, and Shanghai and Ningbo, China.

With your cargo planning in mind, please refer to the following published news on our website [here](#). It provides an overview per service of the vessels scheduled to omit Pusan or Shanghai and the week number.

If you would like to view the above vessels' schedule information, please visit our vessel tracker in our [Online Business Suite](#). Do you have any questions? Our customer service team at your [location](#) will be glad to guide you based on your individual situation.

Best regards,

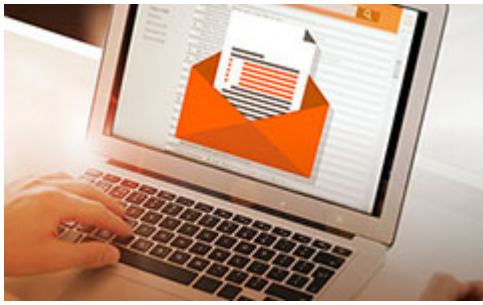

**Maria-Fernanda**

from our Customer Communications  
team
