

## Here's an update for our Brazil-Plata Express (BPX) service

Dear Mathieu,

It is no secret that the global logistics industry is facing an unprecedented strain. This situation has led to changes that affect supply chains worldwide. While the industry adapts to the new scenarios, operational challenges cause irreversible changes.

Thinking about your cargo planning, please note that our Brazil - River Plate (BPX) service will be discontinued on the Southbound direction starting with MV Cap San Augustin V. 214S and Northbound with MV Cap San Augustin V. 218N. For your reference, please find below the last sailings per direction including the vessel name, voyage and Estimated Time of Departure (ETD):

- **Southbound: MV Cap San Maleas V. 213S, ETD Hamburg April 8, 2022**
- **Northbound: MV Cap San Maleas V. 217N, ETD Buenos Aires April 28, 2022**

Please know that in the future, all the ports that were originally covered by this service will continue to be served by our South America East Coast (ECX) service. You can view all future sailings and routings for your preferred origins and destinations [here](#).

We thank you for your understanding, and please know that if you should require additional information our customer service team at your [location](#) will guide you based on your individual situation.

Best regards,

**Maria-Fernanda**

from our Customer Communication  
team
