

Our CGX service will temporarily shift ports from Hamburg to Wilhelmshaven in Germany

Dear Mathieu,

The operational disruptions impacting global supply chains worldwide are causing a high container yard density in many parts of the world. Particularly for our China Germany Express (CGX) service, designed to deliver a fast, reliable and regular product offering between Da Chan Bay and Hamburg, we would like to ensure that we deliver our commitment from the first sailing.

With your cargo planning in mind, please note that our CGX service will temporarily change the port call in Germany from Hamburg to Wilhelmshaven. This change will come into effect with our service's first sailing, **MV Nordspring V. 001W**, expected to depart Da Chan Bay, CN on April 9, 2022, and will be in place until the high yard density in Hamburg stabilizes and allows smoother operations. Please know that we will ensure to keep you updated with the latest developments.

If you should require additional information, please contact our customer service team at your **location**, who will guide you based on your individual situation.

Best regards,

Maria-Fernanda
