

## Here's an update for the barge connection between Antwerp and Rotterdam

Dear Mathieu,

If you have shipments with a pre-booked barge connection between Antwerp and Rotterdam, this update will guide you through the latest developments concerning the congestions at the sea terminals in Antwerp and Rotterdam.

Presently, there are delays for import containers with barge transport between Antwerp and Rotterdam. To help expedite the delivery of your cargo, the barge shipments at Antwerp will be stopped for pickup and clearance at Antwerp. This measure will be in effect for shipments with an estimated time of arrival from May 28, 2022, until June 30, 2022. At the end of June, we will re-evaluate if this measure should be prolonged.

Please know that these measures are unfortunately required to limit the delays for your shipments and clear backlogs on the sea terminals. We understand that this will generate additional transport costs for you, and therefore we will automatically apply a 200 EUR rebate per container on your shipments.

If you should require additional information, please contact our customer service team at your [location](#), who will guide you based on your individual situation.

Best regards,

**Maria-Fernanda**

from our Customer Communications  
team
