<Strengthening of 'No Doc, No Load' Rule>

Dear valued customers,

We always appreciate HMM's valuable customers and partners for your support and wish you all prosperity.

In order to screen out the prohibited/restricted cargos before the cargos are being loaded on board, from now on, HMM will strengthen the 'No Doc, No Load' rule for all shipments of all regions.

1. Effective Date: 2023/05/01 (1st May, 2023) – based on VSL ETD
2. Regulation: The shipper shall be responsible to provide required documentation including S/I (in fully complete and accurate form) to HMM within the Doc cut-off time. The shipper shall provide the required documentation no later than the final deadline that HMM allows, and in the event of failure to comply with the above obligations, HMM may refuse to load the cargo for which above data has not been timely provided by the shipper.

For the safety of your cargos and our crews, HMM would appreciate your cooperation.
