

Dear colleagues,

As also briefly addressed in the last trade update call, **MSC is restructuring there service to South Africa** in favor of improved transit times and higher schedule reliability.

Europe to South Africa - On the southbound the call of Cape Town will be cancelled but covered with a subsequent feeder service, as described below.

As per my information Cape Town call will remain in on the northbound to handle also the reefer shipments accordingly.

MSC starts new Feeder Service for South Africa

MSC Customer Advisory

Hamburg, Germany, 13 January 2023

Dear Customers,

in response to the demand for a regular reliable service ex Far East / Europe to Cape Town, we are pleased to advise that MSC will introduce a dedicated feeder ex Coega to Cape Town.

Shosholoza Feeder Service will give our clients the same advantage of having a direct call in to Cape Town without lengthy transshipment delays.

MSC Anusha III will be deployed on the service with her first call to Coega scheduled for 23 January.

We are confident that the new service will bring our clients the much-needed alternative they need.

THE NEW ROTATION WILL BE AS FOLLOWS:

Coega – Cape Town – Coega
