

PORT SECURE RELEASE FEE AS OF 1ST OF FEBRUARY 2022, ARRIVAL DATE

TO DB SCHENKER GROUP WORLDWIDE

Dear client,

Please be informed that for all incoming shipments arriving in the Port of Antwerp, MSC Mediterranean Shipping Company S.A is compelled to implement the **Port Secure Release Fee of €6 per container as of the 1st of February 2022, arrival date**. The Port Secure release Fee is applicable for **all full import containers (DRY & REEFER)**.

The CPU (Container Pick Up) cost for both shipping lines and terminal operators is billed since January 2021 already.

These charges further increase as from January 1st 2022. We cannot continue absorbing these costs, which is why we need to insist on the implementation as from February 1st, arrival date in ANTWERP.

More information on CPU and its implementation can be found on the [website of POA \(Port of Antwerp\)](#).

If you have any further questions, don't hesitate to contact your local contact person.

Sincerely,
Your MSC Team
