# The Performance of “Full Operation Schedule” Train

On October 26, 2022, The first “**Full Operation Schedule**” (down to minute level) Eurasia train departed out from Xi’an, China. It’s the first time Eurasia railway operates with a fixed schedule of each transit stations, including those outside China. This shows China Rail’s resolve in terms of “quality over quantity” policy and also demonstrated the future on this corridor.

Overall performance has been very stable and satisfactory: China to Germany in **12** days terminal to terminal, weekly departure and DBS has majority of the capacity on such service.

With increasing demand on such product, China Railways coordinated with all parties involved and will deploy the second WB train (ETD July 1<sup>st</sup>) and the first EB train (ATD June 27<sup>th</sup>).

As of 2<sup>nd</sup> half of this year, there will be two WB super express train per week (Wed/Sat) ex Xi’an for Duisburg, and one EB super express train per week (Tue) ex Duisburg for Xi’an.
