Covid-19 Impact

China optimizes COVID-19 response in transportation sector:

- COVID checkpoints are removed on highways and other domestic transportation modes.
- Truck drivers won't have to do PCR tests after they arrive in another province or region.
- However COVID positive drivers are requested to self-isolation.

Basically all the Chinese people are “COVID – naive”, we do expect the first wave will wipe out major working forces in the weeks to come. We might experience shortage of truck drivers/warehouse staff – same as our colleagues did back to last year in Europe.

The Performance of “Full Operation Schedule” Train

On October 26, The first “**Full Operation Schedule**” (down to minute level) Eurasia train departed out from Xi’an, China. It’s the first time Eurasia railway operates with a fixed schedule of each transit stations, including those outside China. This shows China Rail’s resolve in terms of “quality over quantity” policy and also demonstrated the future on this corridor.

The record of real lead-time performance:

- 1st train : 265 hours (11 days 1 hrs)
- 2nd train : 297 hours (12 days 9 hrs)
- 3rd train : 302 hours (12 days 14 hrs)
