According to GPS record, the reloading operation at PL/BY border are running as normal.

- CN / KZ Border : Alashankou / Khorgos border 0-4 days
- CN / MN Border : Erlian border 7+ days
- CN / RU Border : Manzhouli border 7+ days
- BY / PL Border : Mala / Brest border 2-3 days
- RU / DE Border : Kaliningrad / Rostock border 2-3 days

Lead-time

Good lead time performance

GPS trackers installed in containers reported nothing abnormal so far (from Feb 24th to Mar-14th). Eurasia trains are moving on schedule crossing Russia, Belarus and Poland.

Current T/T lead-time for Westbound continues to improve. As to the same period last year, the best lead time performance starts from February. To Mala is 13-15 days, to Rostock is 20-202 days, to Duisburg/Hamburg +3-7 days upon border released and terminal capacity. Extreme delay might still happen to some trains because of the dwell time.

The lead-time for Eastbound is regularly 20-25 days (improved).
