

Sentosa Service Returns to Southeast Asia and India

21/08/2023

As part of our continuous efforts to satisfy market demand and offer competitive transit times, MSC is revising the rotation of its Sentosa service.

The service will now include port calls at Port Klang, Singapore and Busan, as well as reinstating its India connections, providing MSC customers with improved interconnectivity and transit times between Southeast Asia, China and the U.S. West Coast.

In addition, MSC provides direct connections to the main ports of India and Sri Lanka from Long Beach and Oakland. In Long Beach (Pier T), we provide our customers with access to major cities on the West Coast through our rail solutions.

Haiphong will no longer feature in the rotation, but will continue to connect to the Sentosa service via Busan and offer rapid transit times via our intra-Asia network.

Transit times will be Busan to Long Beach in 12 Days, Mundra to Long Beach in 40 days.

The first vessel on this new rotation will be MSC FRANCESCA, Voyage number FV336A, due to arrive in Port Klang on 5 September 2023.

Should you have any questions, please [contact your local MSC representatives](#) in our global network of more than 675 offices.
